### Tree Plantation Report

When you plant a tree, you don't just plant a sapling but hope. We have learned it the hard way that trees are extremely important for our survival. We first resorted to deforestation and made space for more buildings on earth. Later, when we saw the environment getting seriously affected, we were introduced to something called "afforestation", a simple process of planting more trees for a better future. Trees are essentially the livestock of humankind and other living organisms. They have unconditionally provided us with food, oxygen, and many other necessities for human sustainability, such as shelter, medicines, tools, and many more. With such rich values and importance, trees still do not get treated properly. They are cut down, eliminating any kind of life around the area. However, with each passing day, the relevance and importance of planting trees have only increased. It has to be a combined mission of all mankind to plant more trees in order to save our ailing planet.

Thus, the Department of Tamil plans the tree saplings at Pulithevanpatti on 25<sup>th</sup> September 2019. There were nearly 50 saplings plants the village. The second year Tamil Students actively involved planting a sapling at the village. The programme was coordinated by Mr. S. Vijay ARISE Programme Officer, Department of Tamil and Mr. K. Muniyandi, Field officer, ARISE. The aim behind observing the day is to make people aware of the importance of planting trees and help them realize the same. A common practice during tree plantation day is to plant saplings in order to invest in the future.

ARISE organized a two - day Dengue Awareness programme on 14&15 February 2020 in Moonandipatti North and Moonandipatti South, the adopted villages of our College which are two kilometers away from our college. The students of II year B. Com enthusiastically participated in the awareness programme. The programme was efficiently planned and effectively executed under the able guidance of Mrs Ramya and Mr. Kaleeswaran.

The students adopted diverged strategies to impart awareness about Dengue and its dire consequences. They cleaned the whole village with the help of volunteers from the villages. They also made door to door visits and interacted with the families. They put up cultural programmes to raise awareness among the people. A few well-prepared talks were given to the villagers to further raise the awareness on the spread of Dengue and the ill effects and bad consequences of Dengue in their respective houses and the surroundings.

In all, 300 villagers took part in the awareness event and got educated and conscientized on the issue. The villagers as part of their learning also few relevant questions to deepen their understanding of the awareness programme. Their doubts were well received by the resource persons and lucidly clarified and explained to them.

It was mutually enriching experiences for the students, the organizers as well as the villagers. The villagers expressed the sense of learning and looked forward to such information, communication and education in the future too.

## AWARENESS PROGRAMME ON COVID-19 REPORT

In the recent past, there is a large-scale outbreak of an infectious disease around the globe. This is known as Corona Virus Disease – 2019 (COVID-19). This disease affects the respiratory tracts of individuals. Thousands of people lost their lives due to Corona Virus infections. It has emerged as pandemic disease. It is now spread to India also.

At this juncture, The ARISE organized an awareness programme on “COVID-19” on 14<sup>th</sup> March 2020. The aim of conducting this programme was to sensitize the people to the common symptoms and spreading methods of COVID-19 and also the precautions to be taken to control this disease. Students were divided into 10 groups, each group consisting of 4 members. Every group visited the individual households in the village and spoke to the family members regarding COVID-19. Pamphlets on COVID-19 were also distributed to people.

Before meeting the people, Dr. V.Nirmal Rajkumar ARISE coordinator interacted with the students and gave comprehensive information on COVID-19. People of Karisalpatti showed much interest in listening to the students and raised their doubts. The students cleared their doubts. They focused more on explaining the precautionary measures to be taken for controlling the infectious disease. The programme was coordinated by Dr. P. Antony Raj, Programme Officer, and Mr. K. Muniyandi Field Officer, ARISE. The programme was executed by II year Students of RDS.
