POLICY ON FINANCIAL SUPPORT TO STAFF TO ATTEND PROGRAMMES FOR PROFESSIONAL DEVELOPMENT

The quality of any institution mainly depends on the quality of its human resources. Hence, the College regularly organises conferences, training programmes and workshops for the development of knowledge, skill and attitude of the staff, both teaching and non-teaching. Apart from the programmes organised on the campus, the College encourages its staff to attend such programmes in other reputed institutes. The College provides financial support to the selected members of the staff on the condition that the programme will be enriching the staff to contribute substantially to the development of the Institution in a specific way. The College also provides financial assistance to the staff to become members of exceptional professional bodies and to apply for Intellectual Property Rights. The financial support is to be given for both aided and self-financed teaching and non-teaching staff. In return, the professional skill and proficiency of the individual staff will be made available for the growth of the institution and welfare of the students.
