

ENVIRONMENTAL POLICY

Arul Anandar College takes great pride in transforming an arid land into a green garden in its campus and neighbourhoods. The woody trees and shrubs of the campus are attractive and provide a very conducive learning atmosphere. The college instils in the staff and students a deeper ecological responsiveness and a finer aesthetic sensitivity. It fosters steps to educate the students to be aware of and learn from and be grateful to the innumerable services of the flora of the Mother Earth to all living organism, especially to humankind, and its miniature presence within the campus itself. The college evolves an environmental policy to make responsible eco-citizens, by inspiring all its stakeholders to live in tune with nature.

Policies

1. Sensitise all stakeholders on the necessity of preserving the ecology.
2. Educate the staff and students on the principles and practices of sustainable development.
3. Involve in research and extension promoting environment-sustainable development.
4. Educate the community around on the environment friendly cultivation.
5. Develop greenery on the campus and around with the planting and preserving of indigenous plants.
6. Undertake water conservation programmes.
7. Build percolation ponds for maintaining ground water recharge in the campus as well as in the villages around with the participation of student volunteers and in collaboration with the villagers.
8. Identify and preserve rare and endangered species of flora and fauna.
9. Reduce the use of plastic items and encourage the reuse of such items in unavoidable areas.
10. Conduct environment audit periodically.
11. Analyse the environmental issues arising from day-to-day operations for suitable remedies.
12. Educate staff and students on the environment related legislations and government orders.
13. Minimize the use of natural resources and increase the use of recycle technology.
